To all Members

Britannia's Risk Management Programme

An important part of the Club's risk management activities is the programme of technical seminars delivered by our Risk Managers to seafarers employed on Britannia entered ships and to shore-based superintendents. The seminars – which are open to all Members - have been held principally in areas where Britannia Members source crew. In 2009 we asked Members to complete a brief questionnaire about their crewing arrangements, and we would now wish to update our data to ensure we invite all Members to these seminars.

The questionnaire is attached and we would appreciate if you would please return the form to abradley@triley.co.uk

The feedback from those officers who have attended the technical seminars has been very positive. With the information provided by Members on the attached questionnaire we will be able to continue to offer this risk management initiative to a much wider Britannia audience.
