

# CIRCULAR

2 May 2017

**To all Members**

## **FRAUD – first instalment of 2017/18 calls**

The Managers have become aware that a number of brokers have been the victim of criminal computer hacking. This has resulted in some Members in Taiwan receiving an email purporting to be from brokers with a letter attached on fake Britannia branded paper. That fake letter on Britannia branded paper informs Members that the Britannia bank account used for the payment of premium has been changed and requests immediate payment.

### **Please note that the Britannia bank account has not changed.**

If Members have received a false email and/or letter as described informing them of a change of Britannia bank account, they are requested to contact the Managers as soon as possible. Should Members be in any doubt as to the bank account into which they are required to pay premium, they are requested to contact the Managers.
