

Diversion Statement

Ship:

Date:

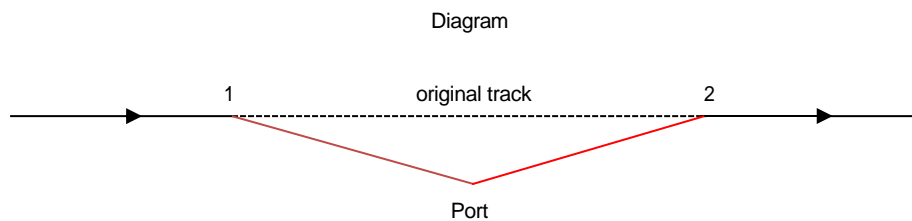

Incident:

Britannia's ref:

Your ref:

Relevant extract from the Rules:

19 (6) Diversion The cost to a Member of putting into, or remaining in, port in circumstances which could entitle the Member to recover under Rule 19(1), Rule 19(2), Rule 19(3), Rule 19(4) or Rule 19(5), but confined to the net loss to the Member (over and above the expenses that would have been incurred but for the diversion or delay) in respect of port charges, bunkers, insurance, Seamen's wages, stores and provisions necessarily incurred as a result of the diversion, while securing medical attention for sick or injured persons on board the ship, or while awaiting a substitute.

Time

	Date	Time	Position
Date/time at start of diversion (point 1)			
Date/time at resumption of original course (point 2)			
Total gross diversion time	days	Hrs.	mins. =(mins.)
<i>Less</i> estimated time if original course had maintained at average speed (1 - 2)	days	Hrs.	mins. =(mins.)
Net diversion time	days	Hrs.	mins. =(mins.) NT

Distance

Distance to port from point of diversion (point 1)

Distance from port to rejoin original course (point 2)

Total gross diversion distance (GD)	(GD)
<i>Less</i> distance from point of diversion to point of rejoining original course (1-2)	
Net diversion distance (ND)	(ND)

If you have incurred additional expenses solely by reason of the diversion, these may be recoverable. Please itemise below any expenses you wish to be considered for reimbursement. Adequate information, including documentary evidence must be provided in support of your claim. Please note that loss of freight or hire is not recoverable.

Total additional costs claimed _____(1)

Calculation of net recoverable bunker costs (NAB)

	A	and	B	and	C
Oil and fuel types:					
Bunkers at the beginning of the diversion			-		-
Bunkers at the end of the diversion	_____		_____		_____
Bunkers consumed during diversion					
less estimated consumption if original course maintained at average speed (1-2)	=====		=====		=====
	=====		=====		===== (NAB)

cost of fuel:

Claim for net additional fuel costs = NAB x costs

A.	NAB X costs	=	X	=	
B.	NAB X costs	=	X	=	
C.	NAB X costs	=	X	=	
			Total NET additional fuel costs		_____
					_____ (2)

Total net diversion claim = (1) + (2) above = + = _____

N.B. This form is intended only as a guide for use in the calculation of a net diversion claim. The above information should now be summarised on the usual Britannia Claim Form upon which should also be shown any diversion related port charges and other expenses which may also be recoverable. **Both Forms** should then be submitted together with **full supporting documentation and vouchers**.
