

## Britannia's 2020 Member Forums Postponed

Each November, the Club hosts Forums for its Members, one in Europe and one in Asia. The Forums enable senior representatives of our Members to receive an update on their Club, with presentations from the Managers on finances, claims, underwriting and general industry developments.

We had hoped that the November 2020 Forums, scheduled to be held in Madrid and Singapore, could go ahead as planned. However, very reluctantly, we have made the decision that it would not be appropriate to hold the Forums this year, bearing in mind that travel restrictions and social distancing measures will most likely still be in place in many countries.

### Webinars

To coincide with the dates of the original 2020 Forums (12 November in Madrid and 24 November in Singapore) we plan to hold a number of webinars so that Members can still receive Club updates. Further details will be sent out in due course.

### 2021 Forums

Our aim is to resume the Britannia Member Forums in 2021, holding the same venues with provisional dates of Thursday 11 November 2021 (Madrid) and Tuesday 23 November 2021 (Singapore). Further details will be sent out in due course.

### Knowledge Base

We are always looking at how best to communicate with our Members and we have been adding more information to the Club's website. There is now a 'new look' knowledge base and we have also started rolling out the Members' portal area of the website, where Members can access their own data on underwriting and claims.

### Social Media

We encourage our Members to engage with our increased social media presence (links below) and to log in to our programme of online learning resources and webinars. Full details are on the Club's [website](#)
